

## **Notice of Utility Tariff Filing**

The REGULATORY COMMISSION OF ALASKA (Commission) gives notice that Golden Valley Electric Association, Inc. (GVEA) filed TA364-13, proposing a rate revision for electric vehicle (EV) charging. On October 25, 2021, the Commission issued Order No. U-21-022(2) approving a two-part rate methodology for EV DC Fast Charging (DCFC) stations. In response to Commission Order U-21-022(2), GVEA implemented an inception rate of \$0.65480 per kilowatt-hour (kWh) for DCFC stations based on a 5 percent load factor.

With TA364-13, GVEA proposes to reduce its DCFC rate to \$0.14951 per kWh based on a higher load factor of 30 percent. GVEA expects that the lower DCFC rate would bring GVEA more in line with that of the other Railbelt electric utilities and would promote the development of EV charging stations in Interior Alaska.

This notice does not contain all requested revisions and the Commission may approve a rate or classification that varies from those proposed.
